LIBRARY, RESEARCH LABORATORY AND MUSEUM OF MATERIA MEDICA

The College Library

The Library of the College is the oldest medical library in Scotland. A few weeks after the foundation of the College in 1681 Sir Robert Sibbald gave to the College some 100 books to be the nucleus of a library. His gift was followed by many others and a system of regular purchases was instituted. Before the end of the seventeenth century a very good collection of the available medical literature had been assembled and the Library had become, what it has been ever since, one of the major activities of the College and the chief burden on its funds.

As a result of its long unbroken history the Library is particularly rich in the early sources of medical knowledge and possesses many rare and some unique books. It contains also over 1000 volumes of manuscripts for the most part connected with the founders of the Edinburgh Medical School.

The number of volumes in the Library is now over 150 000. The Library inherits a remarkable collection of unbroken runs of periodicals and all the important medical works are represented in some edition. At the present time 500 journals are received each year and a selection of the more important monographs is added to the Library. A list of accessions is issued quarterly. The scope of the Library has always been primarily medical. In 1953 agreement was reached with the Royal College of Surgeons whereby Fellows of either College have equal rights and privileges with regard to the libraries of the two Colleges. This has enabled duplication of books and journals to be greatly reduced and a much wider range of medical and surgical literature is now available to the users of either library.

Books are lent to Fellows resident in Great Britain and bibliographical information is supplied to all Fellows. Books are also lent to Libraries and Research Institutions under conditions approved by the Library Committee. As a result of a decision made at the Quarterly Meeting of the College held in May 1953 books can also be lent to registered borrowers who are not Fellows of the College.

The Research Laboratory

The control of the Laboratory passed from the College to the University on 1st October 1950, following a decision of the Carnegie Trustees who were the owners of the property at 2 Forrest Road. Thus there was brought to an end a notable chapter in the history of the College, covering a period of sixty years, during which much valuable research work was accomplished and reporting facilities were afforded to very many over the length and breadth of the land. It is satisfactory to record that the premises continue to be

used for research purposes and that the Histological Department is remaining at Forrest Road. It is hoped that the latter will be perpetuated under whatever form the Lister Memorial Scheme, to which the College was a generous contributor eventually takes and that its title will be such as will serve to commemorate the long and distinguished record of the Royal College of Physicians in research during the past sixty years. A history of the Laboratory has been compiled by Dr John Ritchie and was published in November 1953 It is available on request to Fellows

Museum of Materia Medica

The Museum of Materia Medica, formerly kept at the College, was transferred in the year 1896 to the Pharmaceutical Society of Great Britain, 36 York Place Edinburgh, where it now is Fellows of the College have free access to consult the Collection at any time and Licentiates of the College and Students of Medicine have access to the Collection on producing an order to that effect signed by any Fellow of the College.
